PROFESSIONAL SUMMARY

Motivated and detail-oriented B. Tech Computer Science & Engineering (Data Science) student at Aditya College of Engineering & Technology with a CGPA of 8.08. Skilled in Python, SQL, and Java, with a strong foundation in data analysis and problem-solving. Completed a Data Analysis internship using Python and gained practical experience in data cleaning, visualization, and statistical analysis. Seeking an opportunity to apply technical skills, contribute to innovative projects, and grow in a dynamic organization.

TECHNICAL SKILLS

Python | SQL | Java | Git | GitHub | Flutter | Data Analysis | Data Cleaning | Data Visualization | Data Engineering | Database Management | Problem Solving | Communication | Teamwork | Time Management

WORK EXPERIENCE

Data Analysis Intern | APSSDC – Summer Online Internship **May 2025 – July 2025**

- Analyzed real-world datasets using Python to identify trends and extract meaningful insights.
- Performed data cleaning, preprocessing, and visualization to improve data quality and support analysis.
- Applied statistical analysis techniques to solve data-driven problems and interpret results effectively.
- Strengthened analytical thinking and problem-solving skills through hands-on projects and practical assignments.

Vibe Coding Intern | Smart Bridge – Summer Online Internship **May 2026 – July 2026**

- Collaborated on the development of modern web applications using industry-standard development practices.
- Built responsive and interactive user interfaces using React.js, TypeScript, HTML, CSS, and JavaScript.
- Integrated frontend components with backend APIs to deliver seamless user experiences.
- Utilized Git and GitHub for version control, collaboration, and efficient project management while following clean coding practices.

EDUCATION & CERTIFICATIONS

Aditya College of Engineering & Technology, Surampalem **2023-2027** Bachelor of Technology – Computer Science & Engineering (Data Science) **CGPA: 8.08**

ACHIEVEMENTS

- Successfully completed Data Analysis Internship at APSSDC.
- Introduction to Data Science – Cisco Networking Academy

PROJECTS

Student Social Media Addiction — Data Analysis

Technologies: Python, Pandas, NumPy, Matplotlib, Jupyter Notebook

- Analyzed real-world datasets using Python to identify trends and extract meaningful insights.
- Performed data cleaning and preprocessing to improve data quality and accuracy.
- Created visualizations to present data trends and support informed decision-making.
- Applied statistical techniques to interpret data and solve analytical problems.

EcoTrack – Environmental Monitoring & Sustainability Platform

Technologies: React.js, TypeScript, HTML, CSS, JavaScript, Node.js, Git, GitHub

- Developed a responsive web application to monitor and visualize environmental sustainability data.
- Built interactive and reusable user interface components using React.js and TypeScript.
- Integrated frontend components with backend APIs to deliver seamless user experiences.
- Utilized Git and GitHub for version control, collaboration, and efficient project management.
